"Emerging Challenges and Prospects in Biological Sciences"

February 23-24, 2023

Department of Zoology, Sikkim University, Gangtok

Sikkim University is a Central University established with a vision to achieve intellectual, academic and cultural development of the Eastern Himalaya. The University has 33 full fledged Departments including the Department of Zoology which was established in the year 2013. The Department currently offers Masters and PhD programmes with focal area of research in Biodiversity & Conservation Biology, and Immunology & Parasitology. The strength of the Department currently comprises of four permanent faculty members, three guest faculties and 11 PhD scholars, 44 PG students and two Technical staffs.

About the Conference

India is emerging as a global leader in the field of science and technology. However, with recent challenges in the face of pandemics and climate change, the country needs greater focus on collaborative research bringing together scientists and researchers from various fields of biology. The conference aims to provide a common platform for scientists, researchers, academicians, and students involved in biological research to share their knowledge and ideas about the recent developments, challenges and prospects in the field.

The conference will cover all disciplines of Biological, Health and Allied Sciences.
